**FOR IMMEDIATE RELEASE**

### **Wright Seaplane Base, Inc. Sponsor's West Carrollton Middle School Student to Attend Air Camp USA**

Wright Seaplane Base, Inc. (WSBI) joins with West Carrollton School district to sponsor one deserving child, to attend summer Air Camp USA held at Wright State University. WSBI recognizes the need to encourage and promote Science, Technology, Engineering, and Mathematics (STEM) educational programs, which is why they teamed with West Carrollton Superintendent, Doctor Clifford and Mr. Curell, Executive Director of Air Camp USA, Inc. to promote STEM programs within the West Carrollton middle school district. By superior academic acknowledgement, West Carrollton Middle School eighth-grade student, Liam Chidester was awarded Wright Seaplane Base, Inc. Air Camp USA scholarship.

"We are proud and dedicated citizens for the preservation and development of the West Carrollton community. That is why supporting our younger generations through an adventurous aviation twist to a STEM sponsorship program, such as Air Camp USA, is so important to WSBI. It harkens back to our foundation of aviation history," says President of Wright Seaplane Base, Inc. Jorge Manresa.

At Air Camp USA students learn to work as a team, experience leadership and citizenship as they study the exhilaration of flight through the practice of science, technology, engineering and math. An educational program supported through the theory of aviation, aeronautics and their first flight.

"Our primary mission is preserving and sharing the Wright Brothers' philosophy of flight and Orville's efforts that contributed to the development of Hydro Aero-plane technology. And if we can encourage our younger generation along the way, think how much better our community can be" says Manresa.
